W.F.J. Baeyens (ed.), Trace Metals in the Westerschelde Estuary.

Contents

To Professor Ivan Elskens ix

Preface xi

Photographs ..... xii–xvi

General description of the Scheldt estuary
by W. Baeyens, G. T. M. Van Eck, C. Lambert, R. Wollast & L. Goeyens 1–14

Biogeochemical behaviour of Cd, Cu, Pb and Zn in the Scheldt estuary during the period 1981–1983
by W. Baeyens, M. Elskens, G. Gillain & L. Goeyens 15–44

The biogeochemical behaviour of Cd, Cu, Pb and Zn in the Scheldt estuary: results of the 1995 surveys
by W. Baeyens, K. Parmentier, L. Goeyens, G. Ducastel, M. De Gieter & M. Leermakers 45–62

Behaviour and speciation of mercury in the Scheldt estuary (water, sediments and benthic organisms)
by W. Baeyens, C. Meuleman, B. Muhaya & M. Leermakers 63–79

Effect of organic complexation on the behaviour of dissolvd Cd, Cu and Zn in the Scheldt estuary
by W. Baeyens, L. Goeyens, F. Monteny & M. Elskens 81–90

The impact of the Scheldt input on the trace metal distribution in the Belgian coastal area (results of 1981–1983 and 1995–1996)
by W. Baeyens, M. Elskens, R. Van Ryssen & M. Leermakers 91–108

A box-model of metal flows through the Scheldt estuary (1981–1983 and 1992–1995)
by W. Baeyens, F. Monteny, R. Van Ryssen & M. Leermakers 109–128

Water quality modelling of the western Scheldt estuary
by M. R. L. Ouboter, G. T. M. Van Eck, J. A. G. Van Gils, J. P. Sweerts & M. T. Villars 129–142

A time-dependent flow model for heavy metals in the Scheldt estuary
by F. De Smedt, V. Vuksanovic, S. Van Meerbeeck & D. Reyns 143–155

Evolution of trace metal concentrations in the Scheldt estuary (1978–1995). A comparison with estuarine and ocean levels
by W. Baeyens 157–167
